To: Tega Cay Water Service

April 23, 2010

About two months ago you were contacted by us to fix the water leak in our driveway. Two men came and looked it over but said they could not do anything. They said to call back if anything changed. It has not changed, in fact it seems worse.

I was confused in that about a year ago I had a similar problem on the same driveway about ten feet up the drive. You repaired it. I don't know why you did not fix it this time. There is no water available on this side of our house. I ask that you fix this soon.
